

### Tools Required

13mm Socket

Ratchet

Torque Wrench

### Notes

Read this instruction carefully before starting installation.  
Proper tools will improve the quality of installation and reduce the time required.  
If missing parts or any damage found, please take a picture, and contact us.  
**Professional installation would be highly recommended.**

### Step 1:

1. Locate (3) mounting positions on each side inner rocker panel.
2. There are 4 mounting positions each side, we will use the 1st, 2nd, 4th.
3. Clean the sealant and dirt around mounting positions.
4. Remove rubber plugs and clean factory threaded inserts.

### Step 2:

1. Attach the bracket to the thread inserts on inner rocker panel.
2. Secure the bracket to inner rocker panel with (2) M8×25 hex bolts, (2) M8 lock washers, (2) M8 flat washers.

**Note:** The passenger side is shown, repeat on the driver side.
