# ASSEMBLY INSTRUCTIONS

AULIFL-2001 GZYZ-V1

## NOTICE

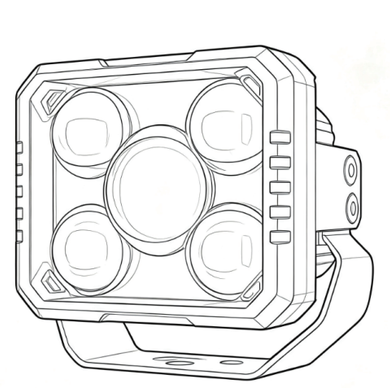

### Safety First

This document provides all the necessary information to allow your product to be properly and safely installed.We suggest that you can read this manual completely before installing or operating your new product.Important information is contained here which could help prevent serious injury or damage.

- Proper installation of this product requires the installer to have a good understanding of automotive electronics,systems and procedures.
- If mounting this product requires to drill holes, the installer MUST make sure that no vehicle components or other vital parts could be damaged when doing that. Check both sides of the mounting surface before starting drilling. Also de-burr the holes and remove any metal shards or remnants,then install grommets into all wire passge holes.
- If this manual states that this product may be mounted with suction cups, magnets, tape or Velcro TM , clean the mounting surface with a 50/50 mix of isopropyl alcohol and water and dry thoroughly.
- Do not install this product or route any wires in the expand area of your air bag,which will damage or reduce the effectiveness of the air bag, or become a risk that could cause serious personal injury or death.So in order to guarantee the safety of all the passenger inside the vehicles,I hope you can remember this in your heart.
- In order to let this product operate at optimum efficiency, a good electrical connection to chassis ground must be needed. The recommended procedure requires the product ground wire to be connected directly to the NEGATIVE(-) battery post (this does not include products that use cigar power cords).
- If this product uses a remote device for activation or control, make sure that this device is located in an area that allows both the vehicle and the device to be operated safely in any driving condition.
- Do not attempt to active or control this device in a hazardous driving situation.
- This product contains strobe light(s), high-intensity LEDs or a combination of these lights. Do not Look straightly into these lights. Momentary blindness or eye damage could result.
- Clean the outer lens with soap and water,other chemicals could result in premature lens cracking(crazing) and discoloration. Which will significantly reduced its effectivenes and shorter its lifespan. Inspect this product regularly to confirm its proper operation and mounting condition. Do not use a pressure washer to clean this product.

- It is recommended that these instructions should be stored in a safe place and in case of performing maintenance or reinstallation of this product.
- **FAILURE TO FOLLOW THESE SAFETY PRECAUTIONS AND INSTRUCTIONS COULD RESULT IN DAMA GE TO THE PRODUCT OR VEHICLE AND/OR SERIOUS INJURY TO YOU AND YOUR PASSENGERS!**

## SUITABLE MODEL

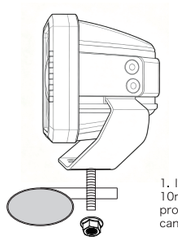

(MOTORCYCLE) (OFF-ROAD VEHICLE) (CAR) (BIG TRUCK)

## INSTALLATION INSTRUCTIONS

Before installing the work light, please assemble it with the base using the provided 4 M5*10mm screws. Additionally, use washers at the fastening points to ensure a secure installation.

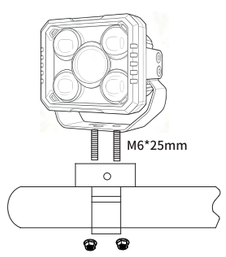

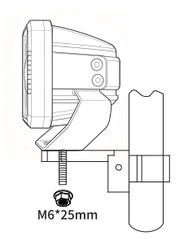

(Fig A)

1. Install light on bumper, light bar or other desired location simply by removing the 10mm lock- nut and sliding the threaded rod through mounting hole. Center light on product and tighten nuts completely. (Fig A) If you do not need all mounting bolts they can be easily removed by sliding them to the center of the slot and then pull out.

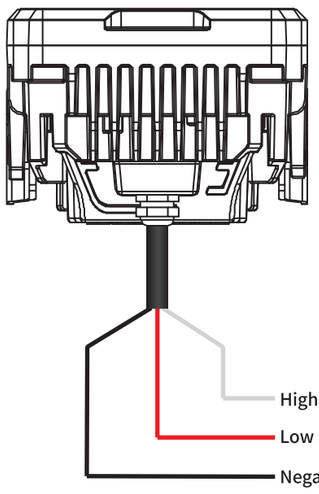

### Installation Method Using Pipe Mount Adapters

1. Install the side mount on the lamps and fasten with bolts.
2.Attach the clamps onto the roll bar/pipe/tube.
3.Insert the bolt through the clamp, mount, and roll bar then tighten it.

Power: L/45W ± 2W, H/92W ± 2W
Voltage Range: 9V ~ 36V
Color Temperature: 6000K
Operating Temperature: -40°C ~ 105°C.

**⚠ Warning**
This product contains high intensity LED device. To prevent eye damage, DO NOT stare into the light beam at close range

High beam positive
Low beam positive
Negative (common ground)
